

Crew safety briefing and check list

All crew members must wear a buoyancy aid (check correctly fitted)

All crew are wearing suitable clothing

Remember before going on the water

Be aware of slippery paths / slipway

Step inside boat, not on the edge and step over the seats

Only stand when instructed

Keep hands inside boat (avoid trapping when alongside another boat)

Buoyancy aids must stay done up.

Should you become tired, too hot or cold, please then inform the person in charge

Finally in unlikely event you have an injury please report it to the person in charge

Wash hands after event (particularly before eating)

Embarkation checks

Check for river traffic

- Assign crew members to mooring ropes (single up)
- Oars out on stream side
- Crew ready on land side
